Guangzhou Junqian Nonwoven Co., Ltd., with its own sales and marketing company - **Foshan Guide Textile**

Co., Ltd., has been a leader in the promotion of environmental protection and sustainability.

Our factory located in Guangzhou, covering an area of 58500 square meters, and not just specialized in the production of non-woven and non-woven spiral material after processing products, but also providing non-woven advice and agency services.

We supply several advanced non-woven production lines with a width range of 1.8 meters, 1.9 meters,

2.1 meters, 2.5 meters, 3.2 meters and 6 meters, output in various colors and wide range of specifications.

Our rigorous management system and team of professionals guarantee the premium quality of the products.

We monitor the entire production process from the acquisition of raw materials to the delivery of the finished product; and guarantee the achievement of the highest standard.

Non-woven fabrics are not woven, but a paper-like process is used to press the fibers into a cloth. Therefore, the non-woven fabric has no latitude and longitude lines, and no matter how it is cut, the cloth edges will not bloom.

Non-woven felt is very suitable for children to do handicrafts. It is made of oriented or random fibers. It is a new generation of environmentally friendly materials. It is moisture-proof, breathable, flexible, light, non-combustible, easy to decompose, non-toxic and non-irritating.
